Christine--

Thanks for taking the lead on this. My comments/suggested edits are attached for your consideration. I added track changes to a version Alan already had made some changes to to make sure statements in this summary aligned with statements in the decision doc. Most of my comments and changes were made along the same lines--to ensure consistency with current lang. used in the decision document. I think that is important and something I know Jeff has focused on during his legal reviews as well.

As a general comment, I know our goal is something short and sweet but we may want to consider reformatting our options as a list of bullets rather than as an in-paragraph list to improve readability. I found it a little difficult to read a long list of recommendations in paragraph form.

I have shared with NMFS and will let you know if I hear back from them in time for the 10:00am PST deadline. Otherwise, we may need to say these are some preliminary thoughts pending further discussion with NMFS.

Allison

Deliberative/Pre-Decisional—Not for Public Disclosure

Yesterday Dennis and Will had a call with Richard Whitman and Dick Pedersen regarding our upcoming decision on Oregon's CZARA program. The State asked for a draft of the minimum requirements for them to get over the bar to approval and associated milestones that parallel the timeframe for deferral of penalties. We need to get a draft of the latter to Dennis and Will by end of today so that they can get it to Richard and Dick by end of day tomorrow (Wednesday). Will is having a meeting with the Governor this Thursday covering various issues, and will discuss this piece in that meeting.

I think we have what we need to work with but I need your help to refine it. The two documents that I think we use to put together the draft that we would share with the state are attached. I will be working on them this morning to come up with a version that includes some greater specificity on milestone which I will then want you all, particularly Allison (and NMFS contact), Alan and Jenny, to quickly look at and let me know if it meets our needs/expectations.

Things are moving very quickly now and we need to get this done ASAP. I can fill you in more completely on our call tomorrow.
